Gilbert Kilakiga

INFORMATION TECHNOLOGY STUDENT | ASPIRING SOFTWARE DEVELOPER

gilbertkilakiga02@gmail.com

PROFESSIONAL SUMMARY

Information Technology student with hands-on academic project experience in web applications, business workflows, student records, and inventory management. Seeking an entry-level software development opportunity to contribute practical skills and continue learning.

TECHNICAL SKILLS

Languages: PHP, C++, C#, JavaScript, Dart (Flutter fundamentals)
Web: HTML, CSS, Bootstrap
Databases: SQL, MySQL, MariaDB
Competencies: CRUD operations, object-oriented programming, user authentication, input validation, database design, debugging

ACADEMIC PROJECTS

828 Cafe System
Developed a cafe-focused software project to practice application workflows, information management, and user-oriented system design.

Event Reservation System | PHP, SQL, Bootstrap
Worked on a database-driven application with reservation tracking, scheduling, event management, and user administration.

Student Management System | C++
Built add, view, search, update, and delete functions for student records using object-oriented programming and file-based storage.

Inventory and Sales System | C#
Created functions for organizing product codes, stock quantities, prices, and sales transactions.

User Management Website | PHP, MariaDB, Bootstrap
Worked on registration, login, role-based dashboards, and account administration using SQL queries and input validation.

EDUCATION

Bachelor of Science in Information Technology
Northeastern College | Expected graduation: May 2028

ADDITIONAL STRENGTHS

Problem-solving, teamwork, communication, organization, attention to detail, and adaptability.
